

*It gives us immense pleasure to invite you on a National Science Day 28 Feb. 2023. going to be organized by Dept. of Chemistry, On behalf of Faculty of Science, Siddharth University, Kapilvastu-272202..*

**National Science Day** is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928. For his discovery 'Raman Effect', Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930. In 1986, the **National Council for Science and Technology Communication** (NCSTC) asked the Government of India to designate February 28 as National Science Day. The event is now celebrated all over India in schools, colleges, universities and other academic, scientific, technical, medical and research institutions.

**Objective of Science day:** To spread a message about the importance of science used in the daily life of the people. To display all the activities, efforts and achievements in the field of science for human welfare. It is celebrated to discuss all the issues and implement new technologies for the development in the field of science. To give an opportunity to the scientific minded citizens in India. To encourage the people as well as popularize science and technology.
